2) Send message to all teams

To allow clubs to score points for the ranking list, the teams registered to your event need to have a club ID.

At the same event, many teams can have the same team/club ID, if they are coming from the same club of course.

Do not hesitate to send a message to all your teams before the event to explain that they need to create their own club ID.

The process is this one:

- Connect to https://www.sailcup.com/TRranking/TEAM_login.php
- Click the red button 'Create new account'
- Enter all required information
- Click the 'Validate' button.
- Wait the reception of the email with the temporary password
- If not received, check your spam
- When received, go to the same address:
https://www.sailcup.com/TRranking/TEAM_login.php
- Enter your email and the temporary password

- Change the password
- Now your club ID is created

3) Enter the teams/entries.

When you will receive all the registration of your event, it is time to enter the teams.

Remember:

- It is not mandatory that all team has an ID, and the same for all skippers!
- A team can have an ID and not the skippers.
- A skipper can give his ID even if the team doesn't have an ID
- Only one skipper can give the idea, even if the other skippers of the team don't have any ID
- A team can have no ID and, in this situation, can decide to represent a specific country.
- A skipper can sail for a specific team during an event, and the next event can sail for another team

Click on the button 'Manage Teams & sailors'.

List of all teams of your event :

Register a new team

Name of the new entry/team :
(This is NOT the id of the team!
This is more a name like: TEAM A, team pirates, the sharks, team Germany ...)

TEAM/CLUB ID of the club :
(where is coming the new team
Many teams can come from same club)
The TEAM ID is created at: TEAM_login.php:

MNA/country represented : (if no TEAM/CLUB ID specified as club for this team)

Don't forget to enter each sailor ID for each team after, when the team is registered !!

Enter the following information:

- Name of the new entry/team: this the name of the team, not the World Sailing id! This name must be unique for this event! It will identify the team for the result. It can be 'team A, team B' and so on... Or the name of the country, in case of a continental championship. This is the only information which can NOT be empty.
- TEAM/CLUB ID: if a team wants to represent its club, you have to put their ID here. Many different teams on your event can share the same ID. This information is not mandatory.

- MNA/country. If a team/entry doesn't have a TEAM/CLUB ID but they want to represent their country, anyway, select the country. To enter the country, you must leave empty the 'TEAM/CLUB ID'.

When it is done, click the 'create this new team/entry'.

Repeat the process for all your entries/teams.

Don't leave this webpage, stay on it.
